Summary

Bilingual Governance, Risk and Compliance(GRC) & Operations Professional with a B.S. in Management Information Systems(MIS). Proven track record of enforcing HIPAA regulations, deploying Role-Based Access Control (RBAC), and managing high-stakes technical operations with zero privacy violations across 900+ critical cycles. Targeting remote GRC Analyst, Technical Project Coordinator, and Bilingual IT Operations roles.

Education

Keiser University

B.S. Management Information Systems.

Fort Lauderdale, FL

May 2022

Relevant Coursework: Database Management, Network Security, Systems Analysis, Software Engineering. Process Optimization, Project Management.

Experience

Propio Language Solutions

Data Privacy & HIPAA Compliance Specialist

REMOTE

April 2024 - Present.

- Reduce insider threat exposure by designing and enforcing a comprehensive Role-Based Access Control (RBAC) policy applying the principle of least privilege.
- Reduced Tier 3 incident escalation by 45% within 4 months by analysing KPI trends and deploying a secure, centralized SharePoint knowledge base on a private VLAN.

AnswerNet

Access Control & Security Operations Lead

FLORIDA

Nov. 2023 - Sept. 2024

- Reduce insider threat exposure by designing and enforcing a comprehensive Role-Based Access Control (RBAC) policy applying the principle of least privilege.
- Reduced Tier 3 incident escalation by 45% within 4 months by analysing KPI trends and deploying a secure, centralized SharePoint knowledge base on a private VLAN.

Welocalize(Google Project)

Data Quality & Policy Compliance Auditor

REMOTE

Jan. 2023 - Oct. 2023

- Ensured strict adherence to Google's governance frameworks by executing rigorous compliance audits using the EWOQ ad Rating System.
- Identified policy violations and content risks by analyzing multi-variable data sets, delivering critical QA insights to train search algorithms.

- Reduced manual ticket processing time by 20% by developing automated scripting tools to categorize and route incoming IT tickets.
- Exceeded SLA performance metrics by systematically tracking, documenting, and escalating complex IT incidents via Zendesk CRM.

Projects

RBAC Policy Design: Architected and documented a comprehensive RBAC policy for internal SharePoint environments, ensuring alignment with least-privilege principles.

HIPAA to NIST CSF Mapping: Conducting a gap analysis mapping medical privacy workflow (HIPAA) to NIST cybersecurity framework controls

Skills & Certifications

Frameworks & Compliance: GRC, HIPAA, NIST CSF, ISO 27001 Fundamentals, PCI DSS, Data Privacy Auditing

Technical & Operations: RBAC, Risk Assessments, Incident Response, SharePoint Administration, Advanced Excel, Asana, Zendesk, Kali Linux, Wireshark, Claude, Kimi, DeepSeek.

Certifications: Cisco Networking Foundations(12/2024); Asana Workflow Specialist (04/2025); ISC2 Certified in Cybersecurity(CC) - In Progress.
